

Is Your Pet Identifiable?

If your pet has identification on them, they will be returned faster and easier. Methods of identification include city licenses, collars with the name and phone number embossed, microchips, name tags and rabies tags.

What do I do if I find a lost pet?

- ❖ Look for identification and contact the owner.
- ❖ If unidentifiable please post on local Social Media, call Animal Control or take the animal to the Augusta Animal Clinic (during regular business hours)

For a collar like this please scan the code for examples
